SUMMARY

Full-Stack Developer with hands-on experience shipping MERN-stack applications, from responsive React interfaces to RESTful Node.js/Express APIs backed by MongoDB. Computer Science student at the University of the Punjab, combining coursework in data structures and databases with production experience at Ideoversity, and comfortable owning a feature end-to-end.

SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3
Frontend	React.js, Tailwind CSS, Bootstrap, Responsive Design, SPA
Backend & DB	Node.js, Express.js, REST API Design, JWT Authentication, MongoDB, Mongoose
Tools	Git, GitHub, Postman, VS Code, Vercel, Netlify

EXPERIENCE

Full Stack Developer Jan 2026 – Apr 2026
Ideoversity — Arfa Karim Technology Park Lahore, Pakistan

- Built and shipped full-stack web applications on the MERN stack (MongoDB, Express.js, React, Node.js), architecting RESTful APIs to connect frontend and backend systems
- Modeled and maintained MongoDB schemas with Mongoose, designing scalable data structures across multiple concurrent projects
- Verified API reliability through systematic testing and debugging in Postman, catching integration issues before they reached production

Frontend Developer Sep 2025 – Dec 2025
Ideoversity — Arfa Karim Technology Park Lahore, Pakistan

- Built responsive, accessible interfaces in React, styled with Tailwind CSS and Bootstrap, across several client-facing projects
- Partnered with designers to translate mockups into pixel-accurate UI and improved front-end load times by up to 30%
- Maintained clean version control practices in Git and GitHub, using consistent branching and commit conventions across the team

PROJECTS

Soomro Law Services — Business Website
HTML5 · CSS3 · JavaScript · Bootstrap · Netlify

- Designed and built a professional business website for a law services firm, featuring service listings and contact pages ready for client handoff

ChariTeams — Charity Platform
JavaScript · HTML5 · CSS3 · Netlify

- Developed a charity coordination platform with dynamic, interactive UI components to support team-based fundraising workflows

YouTube Clone
React · CSS3 · Responsive Design · Netlify

- Recreated the YouTube interface pixel-for-pixel, including a video grid, search bar, and sidebar navigation, to practice component-based UI architecture

EDUCATION

B.S. Computer Science, University of the Punjab, Lahore Expected 2027
CGPA: 3.39 / 4.0
Coursework: Data Structures, OOP, DBMS, Web Technologies, Software Engineering, Professional Practices

CERTIFICATIONS

Full Stack Web Development (MERN), Ideoversity — 6-month certification, Arfa Karim Technology Park 2025 – 2026
IBM Full Stack JavaScript Development, Peak Solutions — 3-month certification through Blended International IT Trainings, affiliated with NAVTTC

ACHIEVEMENTS

1st Place — Inter-Batch Competition, Ideoversity

- Guided team to victory against cross-batch participants, showcasing technical excellence, teamwork, and performance under pressure
